

CURRICULUM VITAE
GPN Member Number: #2305

Summary of Professional Experience

This examiner is an expert security professional with more than forty-years of diverse experience in assignments serving as a senior leader and commissioned officer in the U.S. Military, Civil Service, Private Industry, and Law Enforcement. Throughout his professional career he has conducted numerous background and criminal investigations as a law enforcement officer before entering into the field of forensic psychophysiology examination in 2019. After completing 11 weeks of basic polygraph training, he received additional specialized training in performing Post Convicted Sex Offender Testing (PCSOT), the use of advanced testing techniques like the UTAH CQT and is also a graduate of the senior polygraph examiners course. This examiner also completed an extended internship with the Global Polygraph Network lasting over a year culminating in the administration of more than one hundred polygraph examinations of varying types and techniques.

Polygraph Experience

2019 - Present: Certified Forensic Psychophysiological Detection of Deception Examiner

Since receiving certification, he has administered hundreds of examinations for law enforcement agencies, attorneys, private sector companies, federal employees, private citizens, and high net-worth clientele. These examinations include theft, sex crimes, assault, pre-employment, immigration, crimes against children, and infidelity. This examiner has tested internationally and is an alternate member of the Global Polygraph Network's Global Response Team. He uses only scientifically validated testing methods, techniques, and scoring protocols and systems, and utilizes the most sophisticated state-of-the-art instrument on the market: Lafayette LX-6000 digital instrument with countermeasure identification hardware.
